

REMARKS

By this amendment, the specification has been amended to reflect related applications and to have an abstract entered on a separate page. The claims have been amended to convert "use" claims to "method" format, and for clarity. None of these amendments are made for the purposes of patentability, and no new matter has been added.

Dated: March 22, 2006

Respectfully submitted,

By 
Joseph A. Williams, Jr.
